

The Autism House's Summer Book Club for Teens and Adults with Autism

The Autism House and Crème de la Crème Academy has launched an English summer book club for adolescents on the spectrum and their families, and a book club for adults on the spectrum. These book clubs are made to support the cognitive and social development of the readers, along with supporting their autonomy through the individual roles of a literature circle.

The summer book club is 6 weeks, starting July 16, 2020. It is once a week for an hour where we meet online and offers the option of meeting with the group in-person. The price of the book club is \$150.00, and includes 2 novels based on the readers' interests, a literacy package, and occupational therapy support, and shipping costs. For more information, please click on the links below.
